

Spring into STEAM

Spring into STEAM, our systemwide STEAM program for ages 9-12, is going virtual this year and all events will take place during the month of April. This year's theme, "Let's Go!," is focused on transportation and cultural exploration. There will be four different activities that will be presented by community

partners: Arts for Learning, SD Parks and Rec, SD Air & Space Museum, and Toshwerks. Registration is now open for all events on the Library website. "Let's Go!" also includes an Explorer Challenge, in which participants can receive a prize for completing at least two activities. Please [CLICK HERE](#) for details:
