

# DRONE GIFT GIVING: Drone Ownership 101

Do you have a drone on your Holiday gift giving list? Join us Saturday, November 16, 10-12am in the Winer Family Community Room and Art Gallery of the San Carlos Branch Library and learn the ins and outs of responsible drone ownership. A representative from **AGUIRRETECH** will lead the discussion. Drones are becoming more affordable and many people will be giving them as gifts this holiday season. Most people are not aware of the responsibility of piloting a drone. Did you know...

- You need authorization to legally fly in national airspace?
- You can fly up to 400 feet above the ground recreationally?
- If your drone photos/videos are used commercially for someone's benefit, you need an FAA Part 107 Certificate?
- Flying a drone without adhering to FAA rules and regulations can lead to; serious financial liabilities, criminal, and civil penalties.

At Aguirre Tech, emphasizes the importance of responsible piloting and are committed to guiding you through the essential FAA guidelines to ensure safe and legal drone operations. Click [Drone Ownership 101v2](#)
