Odi's Library Day

Did you know the San Diego Public Library has written & published its own children's book? Written by **Hunter Hackett** & illustrated by SDPL's own **Anisi Baigude**, a Library Assistant at the North Clairemont Branch, *Odi's Library Day* is a bilingual board book for young readers to build a lifelong connection to libraries & books.

In the story, ODI (Opportunity, Discovery, Inspiration) the Coyote visits the Central Library for the first time with their parent for a series of literary adventures. During Odi's visit, they receive their first library card, attend a story time where they learn all about kites, discover the Innovation Lab & create their own kite. Finally, Odi is seen flying their kite with their story time friends with the iconic Coronado bridge in the background.

Copies are available for sale at the Library's Library Shop. All proceeds support the San Diego Public Library. You may also borrow the book from your branch library.
