

[June 20, 2-3 PM: Speaker Series- Scams & AI](#)

While scams have always been a threat to financial well-being, technological change is making them ever more difficult to address.

Join us to discuss where we are headed when it comes to hackers, scammers, and artificial intelligence.

We will be getting into the weeds in terms of what we're facing, what law enforcement and civil litigation can accomplish, and what we can do to protect ourselves.
