

May 23, 10-1: SCBL Robotics Extravaganza

ALL AGES WELCOME!!

Saturday, May 23, 10 am - 1 pm, the robots are returning to the San Carlos Branch Library. In the library's lower parking lot, at the corner of Jackson & Golfcrest, competitive robotic clubs from local schools and San Diego neighborhoods will show off their robot creations.

Visitors will even get to operate some robots, including some bomb-disposal bots from the SD Fire Department! AguirreTech will also be in attendance flying drones, as well as the Aztec Aero team, who builds RC airplanes that complete special tasks in the air.

Engineering games and toys will be provided for kids of all ages in the lower lot, including marble runs, Keva planks, and bristle blocks, while Lego building stations will be available up in the Winer room at the library for anyone to build their own creations. Don't miss this exciting event! [Check out pictures and videos from last year's extravaganza here.](#) *Please note that parking will be limited at this event.*
