

Author Talk

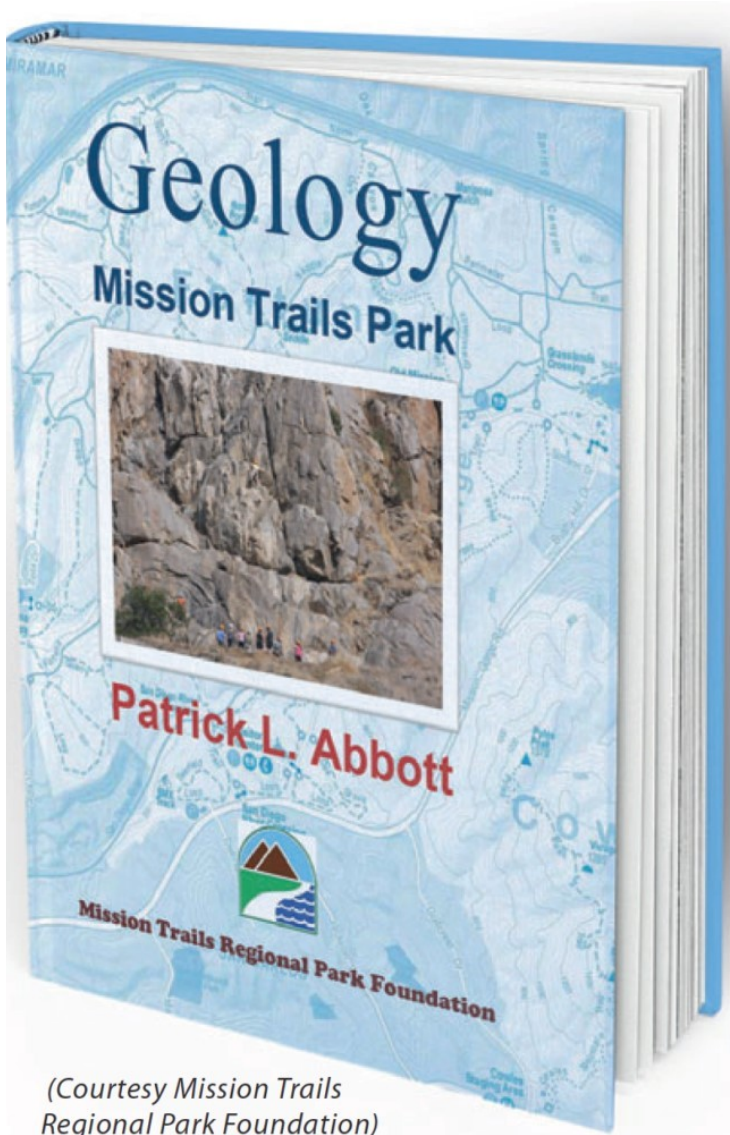

Patrick L. Abbott

Friday January 25th

• 2 - 3pm

Patrick Abbott earned his M.A. and PhD. degrees in geology at The University of Texas at Austin, and became a longtime geology professor at San Diego State University. This book takes us through 126 million years of our park's geological history. Patrick says "My research has focused on reading the history stored in sedimentary rocks and fossils." All proceeds of "Geology, Mission Trails Park," are donated to the Mission Trails Regional Park Foundation.
