

# All About Seals

**Monday, February 5 • 3:30–4:15 p.m.**

Did you know that seal birthing season is right around the corner? This is a great time to visit the beach and see many mother seals and newborn pups!

In this interactive program, you will learn what kind of animal the harbor seal is, what seals do, and how to tell the difference between a seal and a sea lion. Presented by Pam Thomas, Seal Society/Sierra Club San Diego. Ages 4–10.

**Learn about seals  
at the library,  
then plan a family  
outing to the coast!**
