

Science Made Magical!

Wednesday, April 29 • 3-4 p.m. • San Carlos Library | Ages 6-9

Join us for a hands-on STEAM adventure where science becomes wizardry!

Young wizards will use safe, everyday materials to make glowing Wizard's Lava Lamps and build colorful Kaleidoscopes of Light, discovering the magic behind science. A spellbinding mix of creativity, curiosity, and hands-on fun!

Registration is required. Scan the QR code to sign up today!
