

San Carlos Friends of the Library Annual Meeting

**Tuesday, November 17, 2026
3:00 - 4:30 pm**

Speaker: Bill Grella

Lt. Commander Grella served our country for 24 years in the U.S. Naval Submarine Force. His work included nuclear submarine development, ocean engineering, saturation diving, deep submersibles, and development of the Tomahawk long-range missile. After leaving the service, he held a variety of positions with Honeywell Technologies, Allied signal, Stanley Convergent Security, Rosemark CBP/Homeland Security, and Saks Fifth Avenue, where he served as Vice President of Facilities Management - not fashion designer. He now lives locally with his delightful wife, Pam. Both are library lovers and avid readers. Please join us for an engaging talk about life aboard a submarine. Questions are welcome!

**Public is
invited**
